

Job Title: Senior ML/AI Engineer, Technical Representative

Location: Remote

Compensation: \$3000/mo - \$5000/mo

Company: [HiQ Solutions LLC](#)

About Us:

HiQ Solutions LLC is a global software development and outsourcing company based in the U.S. Our slogan is "US Brand and Non-US Talents". We primarily operate in the U.S. market and are hiring senior ML/AI engineers to expand our business.

Responsibilities:

- Participate in introductory and technical meetings on behalf of U.S. engineers to secure U.S. jobs.
- Conduct meetings to secure projects.
- Engage with clients to win U.S. jobs using the name, experience, and location of U.S. engineers.

Requirements:

- 7+ years of experience in ML/AI and Data Science.
- Proficient in spoken English.
- Extensive hands-on experience with PyTorch or TensorFlow and AWS services like SageMaker.
- Fully available during US working hours (8am to 5pm EST).
- Passionate, innovative thinker, and a problem solver.

Hiring Process:

- 30-minute screening interview.
- 1-hour Coderbyte coding assessment.
- 1-hour final interview.
